

California Landscape Conservation Cooperative Informatics Workshop

Wednesday June 8, 9:00am – 4:30 pm
Modoc Hall, Sacramento State University
Willow Room 2 on 1st Floor

Agenda

The purpose of this workshop is to identify short-term recommendations for the CA LCC to begin work toward the CA LCC goal to **“Facilitate information acquisition, interpretation, translation, exchange and availability.”**

Recommendations from this work group will be presented to the CA LCC Steering Committee as options for moving forward with data and informatics needs in the short-term on a few identified important topics.

Time	Description
9:00 am - 9:15am	Introductions; Overall workshop objectives (Pat Lineback)
9:15 am - 9:45am	Orientation to CA LCC; Results of previous workshops; Highlight LCC priority themes (Rebecca Fris)
9:45am -10:00am	Description of workshop components and methods; Three workshop topics; Expected outcomes (Tom Lupo)
	Facilitated discussion: What data sets, tools, experience, examples do participants have related to the three priority areas. Review and define what each priority means.
10:00am -12:00pm	Priority 1: Synthesize existing data, assess data gaps, identify priorities for filling gaps (Lupo/David Harris)
12:00pm -12:30pm	Lunch (bring your own or order in am)
12:30pm - 2:00pm	Priority 2: Facilitating data transfer and presentation (Steve Goldman/ Jennifer Carlino)
2:00pm -2:15pm	Break
2:15pm -3:30pm	Priority 3: Provide guidance and standards for collecting, documenting, and sharing data (Lineback)
3:30pm -4:15pm	Integrate input of the day, draft set of recommendations to the CA LCC, next steps (Lupo)
4:15pm - 4:30pm	Wrap up (Fris)
