

February 20 - 22, 2013

Visalia Convention Center, Visalia, California

SAVE THE DATE - REVISED

A Southern Sierra Nevada Adaptation Workshop

Managing Resources in the Face of Rapid Change and an Uncertain Future

To develop a shared vision to prepare for, mitigate, and adapt to an uncertain future in the southern Sierra Nevada.

Purpose

The goal of this workshop is to identify shared conservation goals and values-at-risk, and to explore regional scale strategies to conserve Southern Sierra Nevada natural resources in the face of rapid change and an uncertain future. This workshop follows the 2008 Southern Sierra Science Symposium, which led to the Strategic Framework for Science in Support of Management in the Southern Sierra Nevada Ecoregion.

Audiences

Land managers, planners, natural resource specialists, science partners, and conservation practitioners. Educators and the general public are welcome.

Registration

Register online starting on October 1.

Poster Session

Poster presentations are invited. Abstracts will be due online by Thursday, December 20, 2012.
