### The White House supports climate science

The White House's new [Partnership for Resilience and Preparedness](#) (PREP) will give organizations access to troves of environmental information so they can make their own plans to counter climate change.

The [Sonoma County Climate Resilience Dashboard](#) is among the first dashboards on the beta site.

### Webinar Series:

***Monarch Conservation Webinar Series***

The Monarch Joint Venture is hosting a series of webinars on Monarch Conservation. The first webinar will be held on **Tuesday, October 4th**.
