

# Partnering with US Fish & Wildlife Service

## LCC Contribution to Natural Resource Conservation

- Developing new partnerships and strengthen existing alliances.
- Promoting development of shared conservation strategies at a landscape scale.
- Providing science-based assessment of climate change and other stressors.

	Number of LCC Projects	Total LCC Contribution	Total Partner Contribution	Total Project Funding
LCC Projects Involving US FWS, Region 8	28	\$2.5 M	\$3.2 M	\$5.7 M
All LCC Projects in Region 8	95	\$8.8 M	\$12.2 M	\$21 M

## Program Budgets

	FY10	FY11	FY12	FY13	FY14	FY15	Total Funding
CA LCC	\$1.2 M	\$2.1 M	\$1.7 M	\$1.7 M	\$1.5 M	\$1.5 M	\$9.7 M
LCC Network	\$20.5 M	\$27.2 M	\$28.4 M	\$29.3 M	\$25.2 M	\$24.5 M	\$155.1 M

### Example of a CA LCC Multi-agency Partnership:

#### The Central Valley Landscape Conservation Project

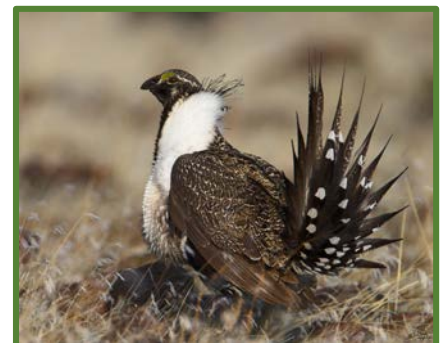

The CA LCC is bringing the conservation community together to develop climate-informed adaptation goals, strategies, and actions for the natural resources of the Central Valley. The resulting framework will serve as a common basis for decisions across resource management organizations.

### Example Great Basin LCC – USFWS Partnership:

#### Managing for Sage-Grouse and Grazers

The Great Basin LCC is bringing scientists and managers together to conduct the first assessment of grazing impacts to sage-grouse populations. This collaboration is being conducted on BLM and USFWS Refuge lands and will directly inform proper stocking levels for both feral horses and livestock in the northern Great Basin.

## LCC Projects in Region 8 (FY 2010 – 2015)

Project Type	Number of Projects	Total LCC Amount	Total Partner Contribution	Total Project Funding
Tribal/TEK	16	\$800 k	\$370 k	\$1.2 M
Climate-Smart Conservation Planning	38	\$3 M	\$3.6 M	\$6.6 M
Decision Support	20	\$1.4 M	\$3 M	\$4.4 M
Climate Change Impacts	28	\$2 M	\$2.6 M	\$4.6 M
Mapping and Monitoring	23	\$577	\$1.5 M	\$2.1 M

## LCC Network Projects (FY 2010 – 2015)

Project Type	Number of Projects	Total LCC Amount	Total Partner Contribution	Total Project Funding
Tribal/TEK	21	\$1.2 M	\$145 k	\$1.3 M
Conservation Planning (Including Climate-Smart Conservation )	234	\$26.7 M	\$20.3 M	\$47 M
Climate Change Impacts	189	\$22 M	\$24.5 M	\$46.5 M
Mapping and Monitoring	135	\$10.6 M	\$22.6 M	\$33.2 M
